NUMBER 263

Rail Hike Granted

WASHINGTON (AP) - The Interstate Commerce Commission granted the nation's railroads today a \$300-million annual increase in freight rates - the first in seven years.

The action came despite Johnson administration requests to hold the line on rate hikes because of their possibly inflationary effects on the economy.

The ICC said the present level of rates "is clearly inadequate to provide the carriers with sufficient revenues, under economic and efficient management, to meet the needs of the commerce of the United States and its national defense."

The rate increase will be about three per cent. The ICC thus gave the railroads almost what they sought. The industry had asked for increased revenues of \$327.6 million a year.

The commission in its 52-page order said the increase would become effective not less than 10 days after the railroads file with the ICC a master tariff plan, detailing the rate hikes.

Theoretically, if the railroads file their plan today, the increase could become effective in 10 days.

The railroads had said they were faced with increased costs this year totaling about \$441 million, and that at the same time net income would fall below what it was last year if rates were continued at present levels.

The ICC said the railroads immediately and urgently need additional revenues to cover at least \$246.4 million of increased wage costs and a substantial part of higher payroll taxes of about \$63.1 million.

In an obvious answer to the administration's expressed fears about the possible inflationary effect of the raise, the ICC said reductions in freight rates "since 1963 have had a deflationary effect."

The ICC said the major source of substantial rate reductions has been continued modernization of railroad plants and equipment.

It said "We believe that authorizing moderate increases in freight rates at this time would, in the long run, do less harm to price stability than would denial of such increases or prolonged delays in making needed increases effective."

Cong Dealt Heavy Losses

SAGON (AP) - U.S. and South Vietnamese forces have killed 350 Viet Cong in the largest allied assault of the war in the Mekong Delta, field commanders in the operation reported today.

The U.S. Command in Saigon announced the massive ground and river operation by an estimated 10,000 troops was launched last Friday to clear out Viet Cong whose mining of the main highway from the delta has raised food prices in Saigon. The announcement of the operation was withheld for five days for security reasons.

The U.S. Command said it had reports of 200 Viet Cong killed and that U.S. casualties were 16 dead and 59 wounded. Unofficial reports from the field said 28 South Vietnamese troops had been killed and 50 wounded.

Elsewhere in South Vietnam, only light ground action was reported.

The air war in North Vietnam jumped back to normal scale Monday as the weather cleared and Navy fliers resumed full operations after the disruption caused by the fire aboard the carrier Forrestal.

U.S. fliers flew a total of 136 missions, 46 more than the 90 flown Sunday. Many of their targets were in the Hanoi-Hai Phong area which had been protected by bad weather in recent weeks.

Two more American war planes were lost, raising to 627 the number of U.S. combat planes reported lost over North Vietnam. Three crewmen were listed as missing.

In two weeks lower Mississippi county farms will place an estimated 300,000 crates, or 18,000,000 ears of choice sweet corn on the nation's tables.

It began in 1959, when Wendell Choate, route two, began growing sweet corn as an experiment. Since, six more farms in the Dorena-East Prairie area have joined in the venture. Joining Choate have been Sam Jones, Jim Davis, Bruce Larkin, James Pollack, H.V. Murrow and James Moreton.

Starting as a hand picking operation, it has developed into a mule-train project with as many as 40 persons boarding the train in a single field operation.

Picking has been stepped up this year by a mechanical picker that will pick 10 to 12 acres per day. It will do what a mule-train can do with 40 persons.

In 1962 a cooling system was added that will bring corn temperature down to 40 degrees, ready to be loaded into refrigerated trucks, at the rate of 1,000 crates per hour.

From mid-July through mid-August, trailer trucks by the dozens each day line up, to carry away the table delicacy.

More than 300 men and women are employed during the picking season. At its height every available man is put to work. Due to the short growing season and the fact that the corn must be picked at a tender stage, 14 from Florida have been brought in to assist.

Choate and associates have planted 200 acres of cabbage as an experiment. The plants are having difficulty in getting a start because of wet, cool weather.

Small Bootheel acreage has been planted in potatoes, cucumbers, of his cotton crop despite a wet spring. Corn and soybeans and the once widely grown water-melon and cantaloupe. Other will be down this year because plantings being considered are of rain.

Symington Seeks Earthquake Toll

Aid Explanation Continues to Rise

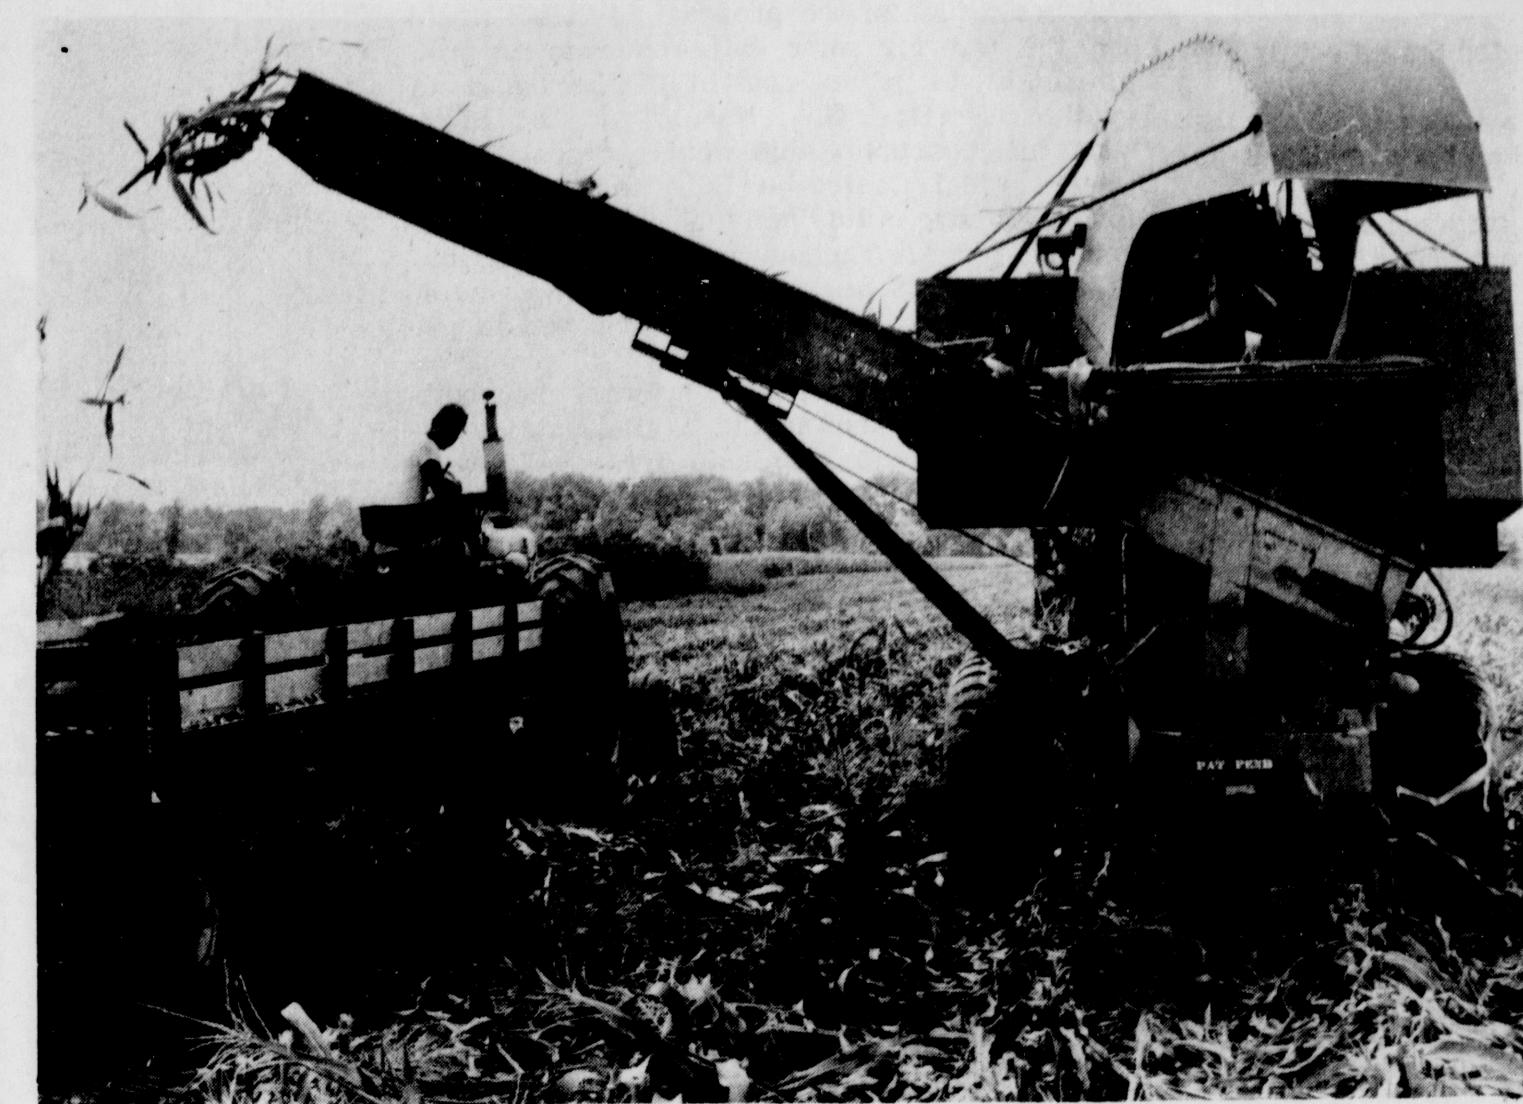

WASHINGTON (AP) - Sen. Stuart Symington, D-Mo., asked today if "massive multi-billion dollar aid given India by the United States" has enabled India to buy submarines from Soviet Russia.

Symington, a member of the Senate Foreign Relations and Armed Services committees, said in a statement that a 14-member Indian delegation visited Moscow in August 1965 and agreed to purchase "four Soviet submarines of an interesting type."

This was "one month before the outbreak of hostilities between India and Pakistan," the senator said.

Later the purchase was reduced to three submarines, Symington said, "because of financial stringency."

The first of these submarines is expected to be delivered later this year," he said.

EARS OF SWEET CORN, as they pour from the picker into a truck bed. The picking was on the Bruce Larkin farm, 18 miles south of East Prairie. The picker covers 10 to 12 acres a day.

A MECHANICAL SWEET CORN PICKER was added this summer to the 1,500-acre field project in Mississippi County. Rollers in front draw in stalks. Ears are clipped off as they enter the machine. Stephen Lenart, a corn grower from Lantana, Fla., stands on the machine.

SWEET CORN, processed at the rate of 1,000 crates per hour, are being sent through a cooling machine at Dorena. Wendell Choate, left, heads the operations. Daniel Tanksley, East Prairie, and Lester Cockrell, Dogwood, handle the crates.

A St. Louis woman suffered multiple cuts to the face and neck when the car she was driving sideswiped a pickup truck at 8:08 a.m. today in West Malone near Missouri, police reported.

Dottie Sue James, 31, St. Louis, was treated and released at Missouri Delta Community hospital following the accident.

The pickup truck was driven by Jesse Berry, 50, 228 Alabama, who was charged with careless and imprudent driving for failure to have his vehicle under control, patrolman Thurman Burns said.

Witnesses told police Berry's vehicle, which was traveling east on Malone, was over the center line when the collision occurred. The James vehicle was traveling west on Malone. Both vehicles were heavily damaged.

Berry told police that he was avoiding another pickup truck, which pulled in front of him, just before the accident occurred.

In other police activity, Loretta Ruth Day, Houston, Tex., was charged by police Monday with peace disturbance. She was placed under arrest at the police station.

Accell C. Gorss, Sikeston, was charged by police Monday with public intoxication.

Anne Davis, 235 Felker, was arrested by police at 1:35 a.m. today on Felker street. He was charged with allowing his son to violate the curfew, interfering with a police officer, resisting arrest and assaulting a police officer.

Scott County chief deputy Eddie Michael served a warrant from New Madrid county this morning to Fred Myrick, Fort Payne, Ala., charging him with operating a vehicle with an altered driver's license. The warrant was served after a bad check charge against him was dismissed in magistrate court in Sikeston.

During the days of slavery they were taken care of by the white masters from the cradle to the grave.

Some had good masters and some had bad masters.

Will not the same thing happen under the benevolence of Uncle Sam.

Some of his regulations will be good and some of them will not be good.

Not all of the Negroes want everything given to them.

We also know many who think that A.D.C. and direct relief are a way of life. Who will not take jobs when offered.

Why should LBJ call on a committee to find out the cause.

We know the cause. It is the assinine promises made by the politicians when they know at the time the promises were made they could not be fulfilled overnight, but would be a matter of generations.

Did they tell the Negroes this. No, they did not.

We thank the Lord every night for the Negro citizens of Sikeston. They are of the best, not the worse.

VIET-WRONGS: That last anti-Vietnam war spectacle in Washington, D.C., partly engineered by Dr. Benjamin Spock and Norman Thomas, was something to behold as was the reporting of it. The day was beautiful: the sky was magically swept clear of rain clouds by 10 a.m. because the Rain God was pacified. The Washington Post (whose idea of editorial excellence was demonstrated when it pontificated on the good fortune of Americans to have had Tito as a guest in this country) reported on the good personal appearance of the Peacenik marchers. This suggests there were two crowds of 20,000 or more, because two staffers wandered among the bearded, jobpurped, tennis-shoed, shaggy-maned, flowing-haired, unpressed, garb-wrinkled, sullen-faced multitude of "peace-lovers" and gasped, as much at the appearance of the know-nothing teenagers as at the mothers whose five-year-old children carried signs. Several nonexamples of American youth complained that some of their Vietcong flags had been snatched from them and were told by the police to report the theft "to another precinct." It was much more peaceful a march than a sensible one, owing to excellent group orientation. The tranquility of the marching thousands suggests that the movement will try to earn favor by good behavior; another example of congenitally bad reasoning, for bad ideas don't become good ones because of a spurious public relations campaign.

This weird collection of know-nothing pacifists, beatniks, pediatricians, socialists, communists and brainless bleeding hearts, it must be noted, has yet to explain why the atrocities and terror of the Vietcong - and the communist government their victory would bring - are better than the way of life the South Vietnamese have chosen to defend. They are full of sound and fury, but they signify nothing. Theirs is a classic demonstration all right - one of collective ignorance liberally sprinkled with subversive influence.

During the "demonstration," the other side behaved admirably. Not a one of its members burned a single copy of Dr. Spock's famous baby book.

Half the declarations of love a man makes to a woman are to quiet her suspicions. ***

GUEST EDITORIAL

By prominent publisher William I. Nichols, discussing recent race riots with Miss Martha Deane, on her radio program July 18:

"When it comes to the causes of today's unrest, I think a lot of it comes under the heading of what sociologists call "the revolution of rising expectations," which is causing so much unrest in so-called underprivileged areas, both here and abroad. Everywhere people are hearing about economic miracles and so they want to share in the new affluence - everybody, everywhere, and all at once. But, unfortunately, it doesn't work out that way. The whole history of minority groups in America shows that progress can be made but it takes patience and work. And it happens gradually."

The Colonel said: "Treat all your friends alike, rich or poor."

With the exception of Vietnam this country's foreign and domestic policy appears to be to meekly submit to any form of persistent pressure.

This is notably true in the Canal Zone.

The Johnson administration is trying to get the Senate to ratify a proposed new treaty with the Republic of Panama. The proposal embodies the spirit of giveaway and submissiveness.

it would give up this country's sovereignty over the Canal Zone, which has prevailed since the canal was opened in 1914.

Another characteristic of the Great Society is present. The annual tribute to Panama would be increased steeply.

Pouring more money into that country will not increase the declining prestige the United States has there.

It's not just a matter of dollars although they won't solve anything.

The basic flaw in the proposal is that it would open the way for some anti-American or pro-Communist to seize control of the canal as Egyptian Dictator G.A. Nasser did the Suez.

What an opportunity this would present Cuban Dictator Fidel Castro in Cuba for a major subversion coup in this hemisphere.

Another federal handout would be intolerable in this dangerous period in the Cold War when the Vietnam war isn't rapidly being won to put it mildly.

The Middle East sits on a powder keg with Russia rapidly rearming the Arab countries for another attempt to eliminate Israel and with persistent open insurrection, anarchy and armed rebellion in the streets of this country's major cities.

Missourians opposed to this betrayal of United States interests should lose no time in expressing their opposition to U.S. Senators Stuart Symington and Edward V. Long in the Senate Office Building, Washington, D.C.

Nothing would suit the Labor Unions any better than for the Government to take over the railroads and operate them.

Would they have a field day since the Government gives them not only what they want but more than they ask for or expect.

Our Brother Ben in St. Louis reports the miniskirt is making the men more courteous - They let the girls get on the bus first nowadays.

Congress should go right ahead and eliminate the Subversives Activities Control Board, Simon McHugh, 29, and all. The country needs neither.

Bobby Baker might still be wheeling and dealing in and out of Washington, D.C., if it weren't for nationwide publicity exposing his activities.

Bobby was a protege of President Lyndon B. Johnson. So is Simon.

Mr. and Mrs. McHugh are among those intimates in whose presence the president is comfortable and relaxed. Mrs. McHugh is a favorite former secretary of the president. The McHughs were recent visitors at the Texas ranch.

There is no evidence to justify any belief that McHugh packs anything approaching the ability to earn \$26,000-a-year he is being paid now unless it is that there are no work or duties connected with it. On that basis anyone could qualify.

McHugh hasn't had much experience in any civilian endeavor but in the real estate business his friends say that he "lost a lot of money." That was before he joined the federal bureaucracy. Since then times have been kinder to him.

The White House insists that he is able and loyal" but there is quite a credibility gap between the Pennsylvania Avenue residence and the rest of the American people at other addresses. Many of whom earn their money.

The board to which McHugh was appointed hasn't done anything in the past 20 months because the United States supreme court ruled that most of what it had been doing before was unconstitutional.

The Wall Street Journal exposed the elevation of the 29-year-old accountant to the soft government job paying \$26,000 a year and the White House propaganda ministry immediately labeled it a "hatchet job."

Of course that is what it was but the task demands a heavy handed meat-ax approach.

Many of the Great Society bureaus need to be weeded out and cut back in the interests of achieving a sounder national economic base.

Money still doesn't grow on trees in this country-not even in Texas.

A fine place to start would be to eliminate the Subversives Activities Control Board. The good work could go on from there.

In pouring your troubles into a friend's ear, do not forget that he has a tongue.

VIET-WRONGS: That last anti-Vietnam war spectacle in Washington, D.C., partly engineered by Dr. Benjamin Spock and Norman Thomas, was something to behold as was the reporting of it. The day was beautiful: the sky was magically swept clear of rain clouds by 10 a.m. because the Rain God was pacified. The Washington Post (whose idea of editorial excellence was demonstrated when it pontificated on the good fortune of Americans to have had Tito as a guest in this country) reported on the good personal appearance of the Peacenik marchers. This suggests there were two crowds of 20,000 or more, because two staffers wandered among the bearded, jobpurped, tennis-shoed, shaggy-maned, flowing-haired, unpressed, garb-wrinkled, sullen-faced multitude of "peace-lovers" and gasped, as much at the appearance of the know-nothing teenagers as at the mothers whose five-year-old children carried signs. Several nonexamples of American youth complained that some of their Vietcong flags had been snatched from them and were told by the police to report the theft "to another precinct." It was much more peaceful a march than a sensible one, owing to excellent group orientation. The tranquility of the marching thousands suggests that the movement will try to earn favor by good behavior; another example of congenitally bad reasoning, for bad ideas don't become good ones because of a spurious public relations campaign.

This weird collection of know-nothing pacifists, beatniks, pediatricians, socialists, communists and brainless bleeding hearts, it must be noted, has yet to explain why the atrocities and terror of the Vietcong - and the communist government their victory would bring - are better than the way of life the South Vietnamese have chosen to defend. They are full of sound and fury, but they signify nothing. Theirs is a classic demonstration all right - one of collective ignorance liberally sprinkled with subversive influence.

During the "demonstration," the other side behaved admirably. Not a one of its members burned a single copy of Dr. Spock's famous baby book.

The Johnson administration is trying to get the Senate to ratify a proposed new treaty with the Republic of Panama. The proposal embodies the spirit of giveaway and submissiveness.

It would give up this country's sovereignty over the Canal Zone, which has prevailed since the canal was opened in 1914.

Fresno Couple Surprised Sunday

FRESNO, Calif. (AP) - B. W. Cook's wife called him: "I don't feel good. Call the doctor."

"So I called the doctor and he told me to take her to the hospital," but he said when he got back from the phone call, "my wife was sitting there with a new baby."

Until Sunday afternoon Cook and his wife, Patricia, were unaware that she was pregnant, said Cook.

He reported that Mrs. Cook had felt tired and run down. A few months ago, and after some tests a dentist advised extracting all her teeth. She was fitted with dentures - and felt better.

"Then she began developing back aches. Only Sunday afternoon the back pains got real bad and my wife made an appointment with the doctor for a check-up. She was going to see him Monday." The unexpected baby, Paul Sterling Cook, weighed 5 pounds and 3 ounces and was reported in fine condition.

The Cooks have three other children. They are Pearl, 11, Susan, 7, and Steven, 5. Cook is a railway communications technician.

Sixth Straight Win

Cards Jolt Second Place Cubs

By THE ASSOCIATED PRESS

St. Louis powered its way past the Cubs, 9-2, Monday in Chicago to gain a 4½ game lead in the National League pennant race.

Lou Brock and Orlando Cepeda drove in seven of the St. Louis runs. Each had a three-run homer and Brock added a sacrifice fly.

Roger Maris drove in another run on a sacrifice fly and Curt Flood singled to drive in one run in the seventh.

Cepeda's homer came in the sixth and Brock's in the eighth.

Ray Washburn got credit for the victory but needed help over the last one and two-thirds innings from Hal Woodeshick. Washburn's record is now seven and four. Rich Nye was the loser.

St. Louis hopes to increase its lead again today at the expense of the second place Cubs. Nelson Briles started for the Cards and Ferguson Jenkins for Chicago.

Kansas City goes to Boston for a twi-night doubleheader with Chuck Dobson and Jack Sanford scheduled to start for the A's and Dave Moorehead and Jim Lonborg for the Red Sox.

Clock-fancier Mike McCormick isn't missing a tick in his second time around for the San Francisco Giants.

Bo Belinsky, never much of a clock-watcher, finally is making time for the Houston Astros and they figure it's bet-

ter late than never.

McCormick, who shifted his collection of antique time-pieces from Washington to San Francisco when the Giants reacquired him in a winter trade, became the National League's first 14-game winner Monday when Jack Hiatt's grand slam pinch homer gave him an 8-4 victory over Pittsburgh.

Belinsky, whose watch stopped several times in Los Angeles, Philadelphia and Houston when the midnight curfew was at hand, held the New York Mets to two singles and beat them 3-2 Monday night with ninth-inning help from Larry Sherry as the Astros stretched their season-high winning streak to seven games.

In other National League games Atlanta trimmed Cincinnati 5-2 and Philadelphia downed Los Angeles 4-2 in 11 innings.

McCormick, who started with the Giants in New York 11 years ago at the age of 18 and made his way back into their starting rotation after stopovers in Baltimore and Washington and a long bout with arm trouble, fought the Pirates to a 4-1 standstill through eight innings.

In the bottom of the eighth Hiatt pinch hit for McCormick and cleared the bases with his homer off reliever Elroy Face.

McCormick, 14-5 is tied for the major league victory lead with Jim Lonborg of the Red Sox.

The 28-year-old southpaw has 30 clocks on display in his suburban San Francisco home.

Belinsky, who was out of time after being drafted by the A's from San Diego of the Pacific Coast League last November, brought his record to 3-6 and lowered his blown-up ERA to 4.76 by stymying the Mets despite a shaky start.

The flamboyant left-hander was clipped for two runs in the first inning on two walks, an error, Tommy Davis' single and a bases-loaded wild pitch.

Belinsky issued a two-out walk in the second, then set down 19 straight batters before the ninth. After walking Ron Swoboda, Bo was lifted and Sherry came in to snuff out the threat.

Ron Davis' leadoff homer triggered a two-run Houston burst in the first inning and Bob Lillis' run-scoring single in the fourth broke the 2-2 tie.

The Braves struck for three runs in the fourth inning and added two more in the fifth on Clete Boyer's 15th homer in snapping a three-game losing string and moving past Cincinnati into third place. Knuckleballer Phil Niekro went the distance for Atlanta, scattering nine hits.

Pinch hitter Tony Taylor singled home the tie-breaking run in the 11th inning at Los Angeles and pinch hitter Billy Cannon's sacrifice fly gave the Phillies an insurance run as they ended the Dodgers' four-game win string. Gene Oliver homered for Philadelphia and singled to start the 11th inning rally.

MOISTURE ON CAR

DATA PROCESSING LOAD

JEFFERSON CITY (AP) — Experts decided Monday a large central data processing unit may be necessary by next Dec. 1 when the Division of Welfare starts processing increased claims under the new Medicaid laws.

The division now processes 37,000 state and federal transactions a month but that number is expected to increase to 800,000 when Medicaid transactions are started.

A team of business consultants conferred with state officials on the problem Monday.

CHECK YOUR TIRES CAREFULLY BEFORE A VACATION TRIP, THE AMERICAN OIL WOMEN'S REPRESENTATIVE ADVISED.

THE AIR PRESSURE ORDINARILY RECOMMENDED FOR A CAR IS BASED ON AN OVERALL CAPACITY OF THREE OR FOUR PASSENGERS AND NO LUGGAGE.

VACATION-BOUND CARS TEND TO BE MORE HEAVILY LOADED.

WITH ENOUGH EXTRA WEIGHT, YOU'LL NEED MORE PRESSURE IN EACH TIRE.

YOUR CAR OWNER'S MANUAL OR YOUR SERVICEMAN CAN TELL YOU THE EXACT AIR PRESSURE YOU NEED FOR THE LOAD YOU'RE CARRYING AND THE KIND OF DRIVING YOU EXPECT TO DO.

Nail Biting Girl Needs Professional Help

Dear Ann Landers: I'm a college student (male) who feels more than a little ashamed writing to you. For years I used to die laughing at some of those nutty letters that appeared in your column. Now I am choking on a humble pie and taking my turn with the rest of the "nuts."

I am dating a great girl who has just about everything in the world going for her. She is bright, attractive and has a terrific sense of humor. The only thing that bothers me about this girl is that she bites her fingernails way down to the cuticle. Her nails are so chewed up that her fingers look almost deformed.

Would it do any good if I came right out and told her it would please me greatly

if she overcame this ugly habit? Yes or no? - JOHN

Dear JOHN: No. Asking her to overcome this ugly habit will not help. It would only make her more self-conscious. Nail biting is a symptom of an unresolved emotional problem.

The girl needs to unload her frustrations and anxieties - preferably on a professional basis.

Let's hope she does so soon.

Dear Ann Landers: A faculty member at our university is a stamp collector. The only problem is he collects stamps from other people's mail before they get a chance to open it.

This sneaky little habit has led to considerable irritation among other faculty members and staff people who frequently find personal and business let-

ters ripped open at the upper

right hand corner.

If a person who worked in a

living room out of bounds be-

get read off in no uncertain

terms. Certainly a double

standard should not exist.

If You Were the Judge

Discarded Ex-Husband Freed of Alimony Pay

By Jack Strauss, LL.D.

Georgie was married to a beautiful girl and a good cook. Unfortunately they were two different women. And, when wife No. 2 discovered that Georgie was a bigamist, she lost no time in attempting to resurrect her former status.

Immediately, she informed her former husband that he could resume making his alimony payments to her that he had discontinued when she strolled down the aisle with Georgie. "Since Georgie was already married," she pointed out, "he couldn't possibly have married me. Therefore, the marriage was like it never happened, and I'm still your lovely-lovey divorcee."

Once off the hook, however, the freedom-loving ex-husband revealed no inclination to jump back on.

"You roped me once, honey," he told her, "but you can't do it twice."

"Honney" thought otherwise, however, and took the matter to court.

IF YOU WERE THE JUDGE, would you require the discarded ex-husband to resume his alimony payments?

This is how the judge ruled: No! The judge held that when a woman remarries, she elects to look toward her new spouse for support.

Therefore, even when she innocently enters into a bigamous marriage, she is thereafter precluded from receiving alimony from a prior husband. By remarrying, she relinquishes her right to alimony to him.

Nail Biting Girl Needs Professional Help

Dear Ann Landers: I'm a college student (male) who feels more than a little ashamed writing to you. For years I used to die laughing at some of those nutty letters that appeared in your column. Now I am choking on humble pie and taking my turn with the rest of the "nuts."

I am dating a great girl who has just about everything in the world going for her. She is bright, attractive and has a terrific sense of humor. The only thing that bothers me about this girl is that she bites her fingernails way down to the cuticle. Her nails are so chewed up that her fingers look almost deformed.

Would it do any good if I came right out and told her it would please me greatly

if she overcame this ugly habit? Yes or no? - JOHN

Dear John: No. Asking her to overcome this ugly habit will not help. It would only make her more self-conscious. Nail biting is a symptom of an unresolved emotional problem. The girl needs to unload her frustrations and anxieties - preferably on a professional ear. Let's hope she does so soon.

Dear Ann Landers: A faculty member at our university is a stamp collector. The only problem is he collects stamps from other people's mail before they get a chance to open it.

This sneaky little habit has led to considerable irritation among other faculty members and staff people who frequently

find personal and business let-

ters ripped open at the upper right hand corner.

If a person whored in a clerical capacity did this he'd be cause she wanted one room in perfect condition at all times: I observed a similar situation when I was a baby-sitter a few years ago. I, too, thought the mother was "mean" but I now see she was doing her chil-

dren a favor. Those kids grew up with a healthy respect for orderliness and the rights of others.

Too often parents underestimate the intelligence of their children. Kids, very young

Legislative Pay Hike Delayed

JEFFERSON CITY (AP) -

Atty. Gen. Norman H. Ander-

son ruled today Missouri legis-

lators cannot get their pay in-

crease until Jan. 8, 1969, the

first day of the next legislative session.

Legislators voted to increase

their pay from \$4,100 to \$8,400

a year. They also appropriated

\$325,000 to make the increase

effective when the law takes ef-

fect Oct. 13.

But the attorney general pointed out the constitutional amend-

ment allowing legislators to fix

their own rate of pay says:

"No law fixing the compensation

of members of the General Assem-

bly shall become effective

until the first day of the regu-

lar session of the General Assem-

bly next following the ses-

sion at which the law was en-

acted."

Anderson told the state comp-

troller, John C. Vaughn, who

asked for the opinion, all rep-

resentatives and senators, in-

cluding holdover senators, will

be entitled to the pay increase

on the first day of the 1969 ses-

sion.

Under those circumstances,

the \$525,000 voted in the omni-

bus appropriations bill to make

the increase immediate will re-

vert to general revenue.
